Base

Type

FDB181

FDB181 Detector Base

The FDB181 detector base is a universal base. It is fixed on the fire detection site and used for the installation of FD181 series detectors:

- FDO181 Smoke detector
- FDT181 Heat detector
- Universal bases, applicable to both surface install and conceal install
- Large opening in the detector base for easy cable insertion
- Adopt environmental protective material

Connecting terminals	1.0... 1.5 mm ²
Operating temperature	According to data of detectors
Storage temperature	
Humidity	
Protection category EGB4208-93	
Colour	White, RAL 9010
Datasheet	A6V10214486

Order No.

S54320-F1-A1
