# Desigo® CC Planning Tool

Precise, efficient safety and control  
at your fingertips

usa.siemens.com/desigocc

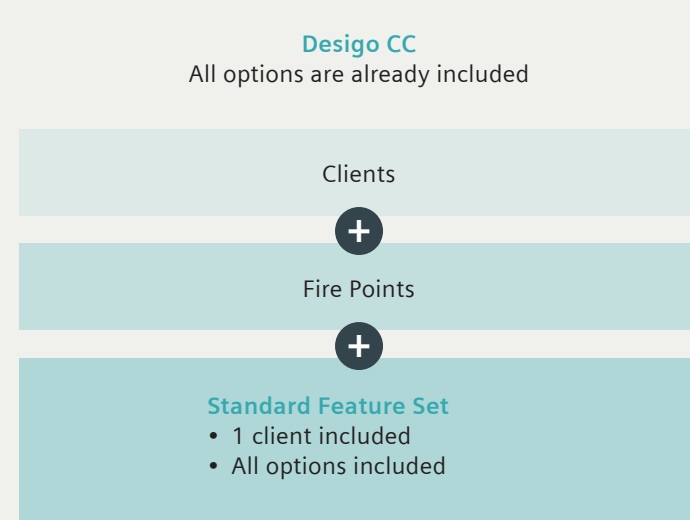

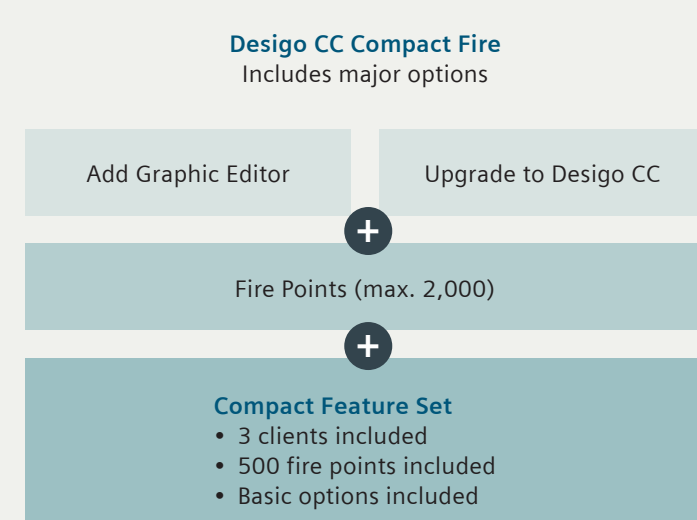

## Desigo CC architecture

\*Refer to the System Description document for a full list of subsystem versions supported by Desigo CC.

## Licensing: Understanding your options

Desigo CC is available in the Desigo CC Compact version that features select options or as the full Desigo CC suite with all options included.

## Software upgrades: Annual Subscription or One-time Upgrade

Your Desigo CC comes with a one-year Software Upgrade Service (SUS) program with options to renew. You are encouraged to keep Desigo CC software up-to-date with the latest software version through the Software Upgrade Service program:

- Maintain an Annual Subscription
- Purchase a One-time Upgrade

### Annual Subscription

- Latest version of software free of charge
- State-of-the-art features
- Best performance
- IT security updates
- Support of latest version of operating system

Every new Desigo CC installation includes free 12 month Software Upgrade Service subscription, which entitles the site to optionally install any new version within the first 12 months after the software is activated.

Annual Subscriptions are renewed for 12 months at a time by purchasing the required number of SUR Units (CCA-1-SUR-UNIT) based on the "Site Value" for the site.

Renew during the active subscription period to continue receiving the latest version of software and maintain your Software Upgrade Service subscription.

After the expiration of the Software Upgrade Service Subscription, the subscription is inactive and upgrades can only be obtained by activating the sites subscription.

### Example: Site with active subscription for Software Upgrade Service

A site with an active Software Upgrade Service subscription will automatically get all new software releases without any additional charge.

### One-time Upgrade

- Remain on current version and upgrade at your convenience
- Continuously receive high level of maintenance and support of existing software version
- Best performance
- IT security updates
- Upgrade your software and receive support of the latest version of operating system

Every new Desigo CC installation includes free 12 month Software Upgrade Service subscription, which entitles the site to optionally install any new version within the first 12 months after the software is activated.

A Desigo CC with an inactive Software Upgrade Service subscription, where the subscription period has expired, can purchase a One-time Upgrade.

A one-time upgrade brings the inactive Software Upgrade Service subscription current and starts a new 12 months Software Upgrade Service subscription by purchasing the required number of SUS Units (CCA-1-SUS-UNIT) based on the "Site Value" for the site. The site is then entitled to receive the latest version of software.

### Example: Site with inactive subscription for Software Upgrade Service

The Software Upgrade Service subscription was not renewed for two or more years from the time the licenses were initially activated.

With the purchase of the required number of SUS units (CCA-1-SUS-UNIT), the sites Software Upgrade Services subscription is reactivated and the latest versions become available for the site.
